POLICY ON TRAINING OF STUDENTS WHO FAIL IN INTERNSHIP

Internships in every alternate semester is the most distinguishing feature of B.Voc curricula being followed in the University. Special examination boards are detailed for assessment of internship as per the relevant provisions of the policy on examination and evaluation system.

In case a student fails in Internship, following procedure will be followed for his training in the subsequent semester:

- (1) A student, who fails in internship, will be asked to repeat his/her internship semester at the university and the concerned school will design the course(s) to be undertaken by the student during that semester
- (2) On completion of the semester, evaluation will be carried out by a special examination board comprising of members from the university and the concerned sector skill council.
- (3) Rs 6000/- will be charged as semester fees from such students.
